Sunny Babies (formerly called *Baby Your Baby*)

Need financial assistance or need to find a physician? Sunny Babies can help. Sunny Babies is a program encouraging pregnant women to seek early and continuous prenatal care, beginning the first trimester of their pregnancy. Studies show that women who utilize early and continuous prenatal care tend to have fewer problems during pregnancy and may significantly lower their risks of a problem pregnancy.

Sunny Babies helps you:

- Find a physician so you can get early and continuous prenatal care
- Enroll in Medicaid to insure both you and your baby
- Register for free childbirth classes at any Sunrise Health facility (Southern Hills Hospital, Sunrise Children's Hospital or MountainView Hospital)
- Pre-register your delivery at the Sunrise Health Hospital of your choice

Midwifery Services at MountainView Hospital

MountainView Hospital offers Certified Nurse Midwives as a holistic alternative to traditional labor and delivery services. Midwives are trained healthcare professionals who provide care to women throughout their pregnancy and during the delivery process. They work hand-in-hand with the highly skilled Women's Services Team at MountainView, which includes obstetricians and gynecological physicians, registered nurses and ancillary staff. Certified Nurse Midwives provide education to mothers-to-be and their families, and can support the family in the many decisions that must be made during the delivery process.

You're Invited To Come See For Yourself
